# Mission

We think and implement customized and efficient solutions for climate Wellbeing.

**WE IMPROVE PEOPLE'S LIVES**

# Promise

Through the range of invisible and silent integrated systems MORE ensures maximum living comfort.

**WELLBEING**

# Values

- People at the center
- Comfort and efficiency
- Technological innovation anticipating the needs of users, designers and installers.

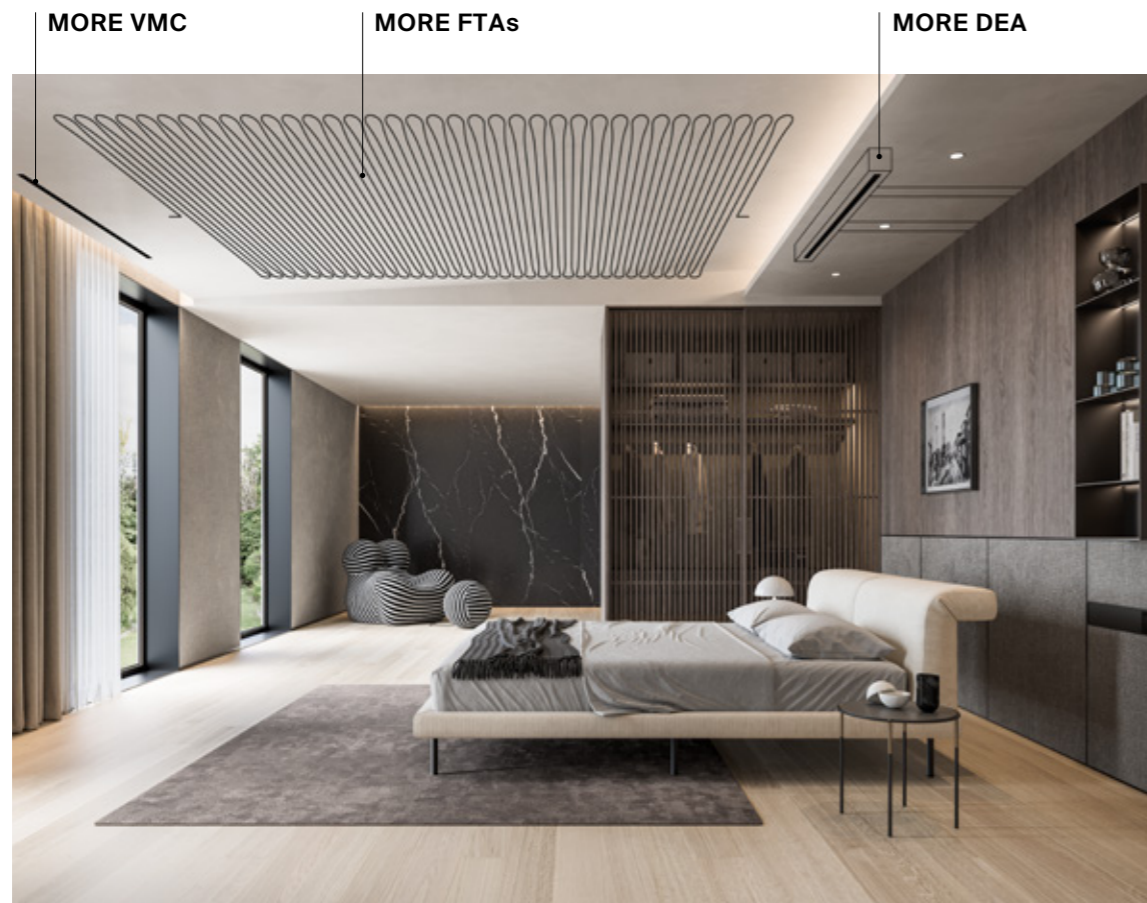

Climatic comfort  
becomes living  
well-being as as  
if the guest were  
at home

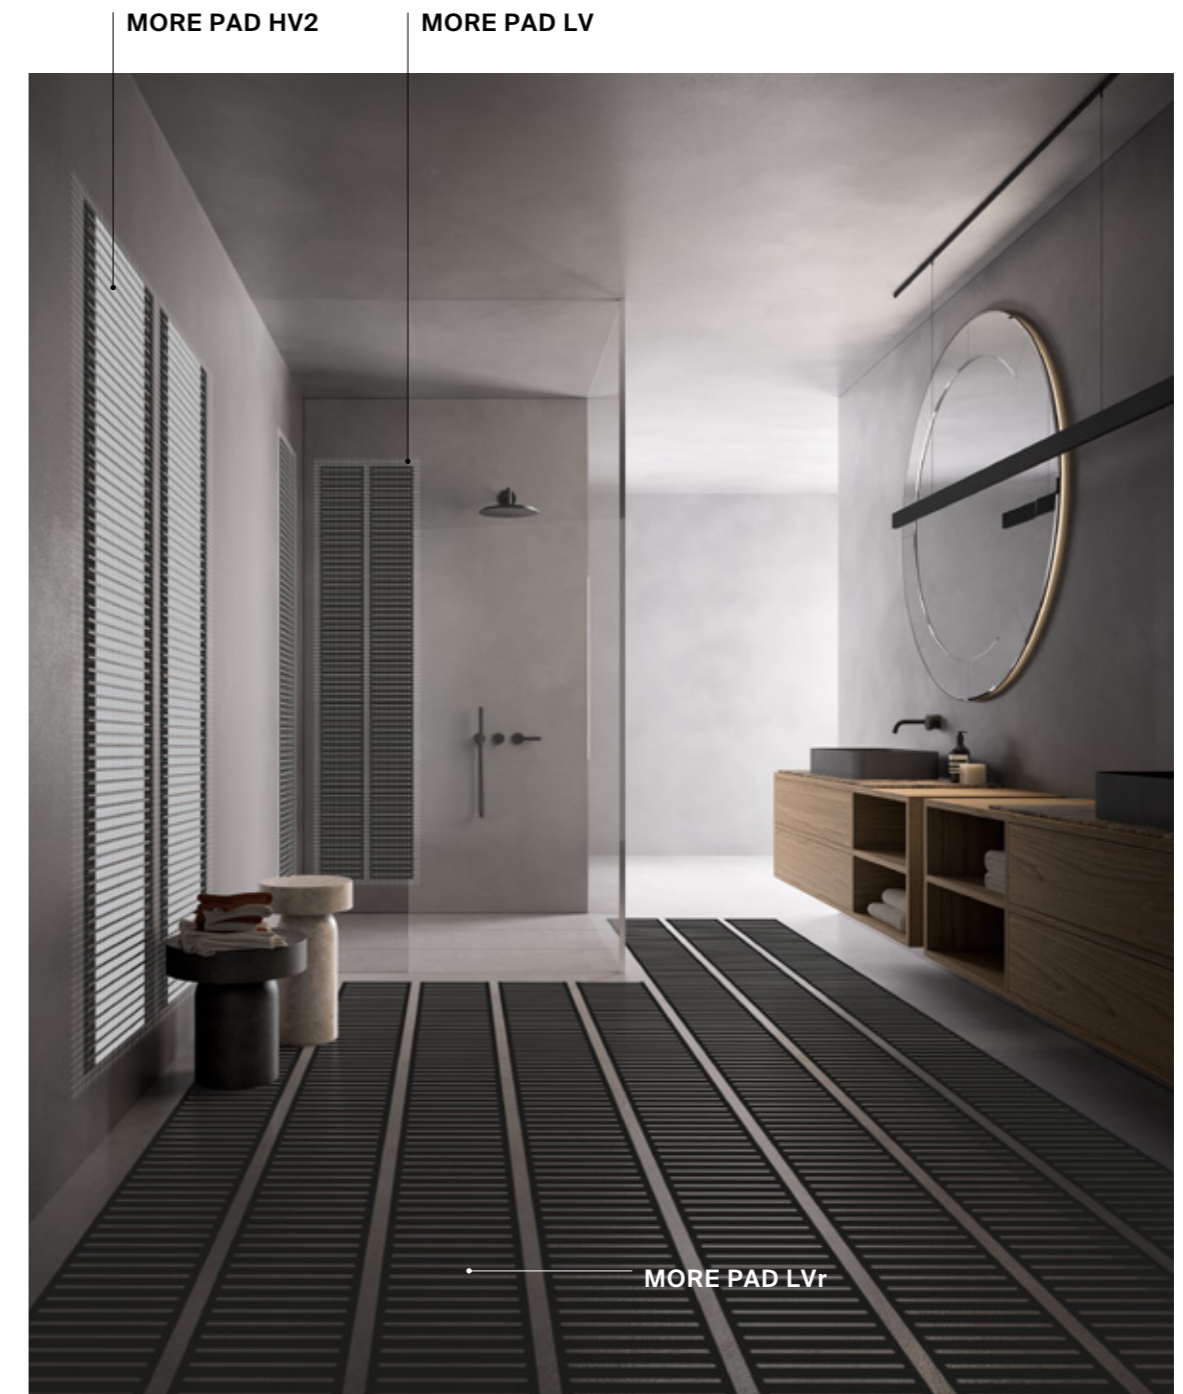

Giving value to climatic well-being in every room for a new concept of exclusivity

# In every area of the hotel

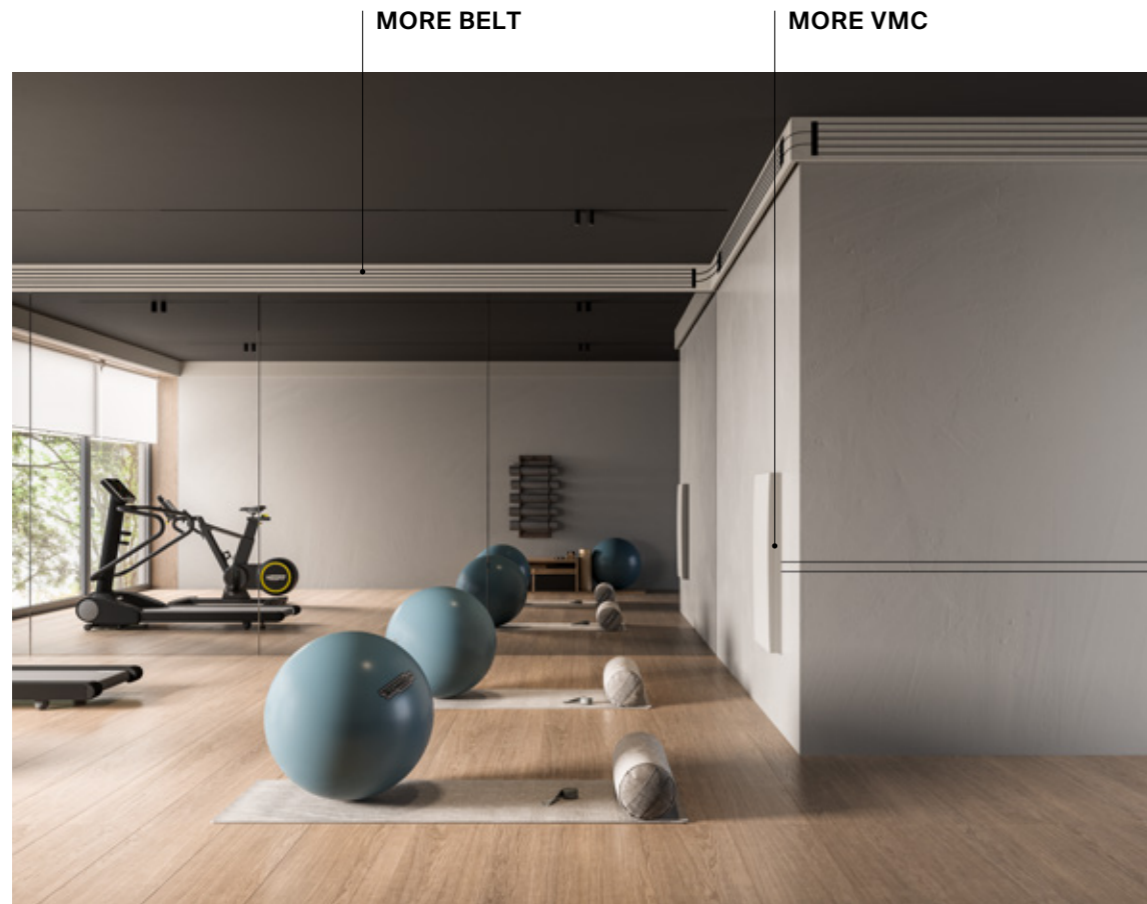

## Suites and Rooms.

A hotel room is a temporary dwelling where everything must work perfectly to make the guest feel at home. MORE designs flexible systems, quick to set up the indoor climate, without noise and air movement, combining efficiency and economy.

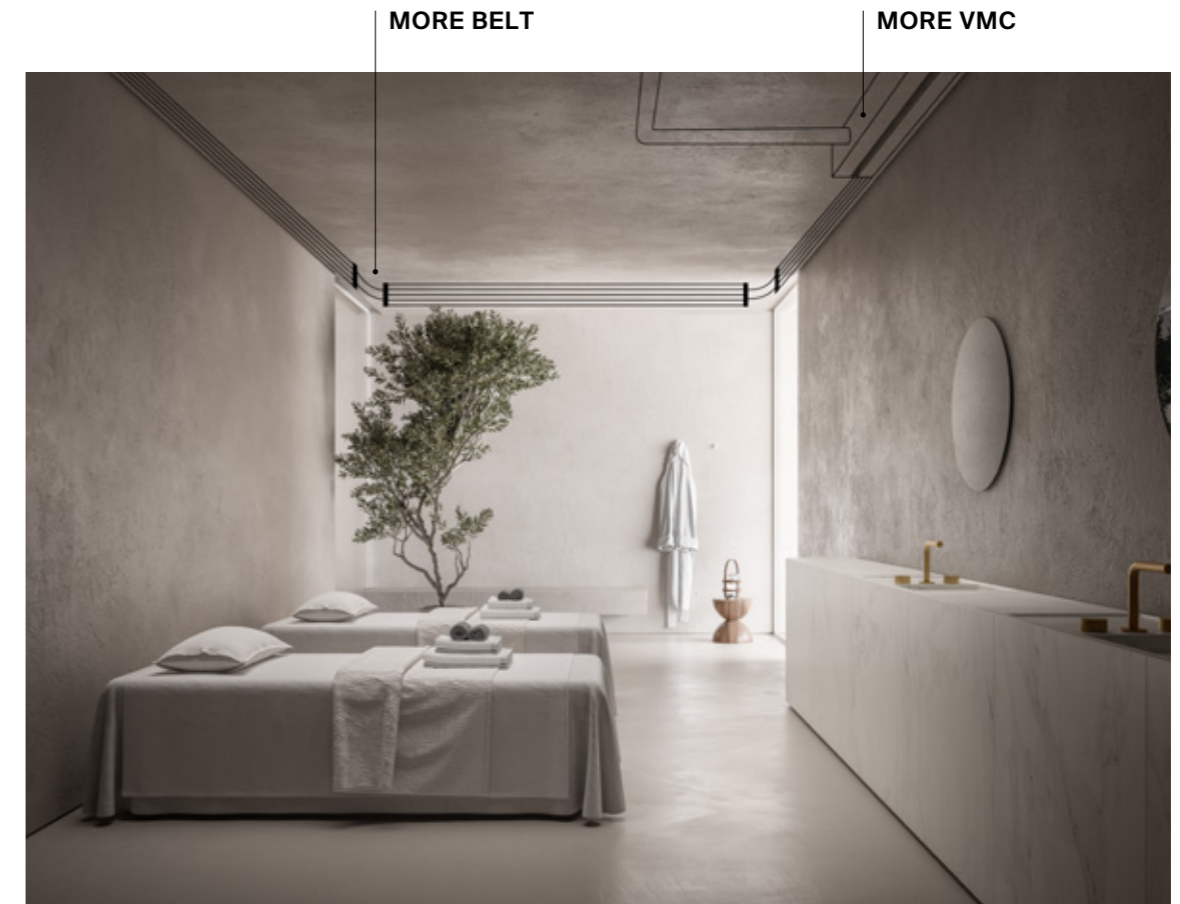

A new way of experiencing warmth in the bathroom environment. From climatic comfort, to the bathrobe that is always dry.

### Fitness Room.

In a fitness area, it is essential to ensure an optimal climatic environment and constant air treatment to maximize the benefits of training and promote well-being.

### Wellness Room and Spa.

MORE solutions make it possible to create a cozy, quiet and healthy environment, promoting physical and mental well-being.

### Dehor.

Efficiently managing the climate in unconventional architectural spaces requires targeted and efficient heating solutions.

# What Climate Wellbeing Means

- **CORRECT TEMPERATURE AND HUMIDITY WITH MAXIMUM SPEED OF REGULATION**  
to always ensure the desired Wellbeing in a short time without air movement
- **QUIETNESS OF THE SYSTEMS**  
for total acoustic well-being and minimizing drafts.
- **ABSENCE OF AIR MOVEMENT**  
to avoid annoying direct drafts
- **INNOVATIVE AIR RENEWAL AND FILTRATION SYSTEMS**  
to ensure its healthiness within the rooms for healthy rest and perfect awakening
- **INNOVATIVE ELECTRIC RADIANT SYSTEMS FOR HEATING UNCONVENTIONAL SPACES AND PERGOLAS**  
to expand common and service areas even in cold seasons by eliminating lamps and fungus
- **CLIMATE MANAGEMENT**  
user friendly for the guest
- **TECHNOLOGICALLY ADVANCED SYSTEMS**  
to ensure climatic well-being within SPA areas and fitness rooms
